

About Gabrielle Traub

Gabrielle studied homeopathy at the University of Johannesburg, in South Africa where she trained in hospitals and rural clinics. She has been blessed with the opportunity to study with world renowned teachers such as George Vithoulkas, Paul Herscu, Ronald Boyer (Head of Boiron USA) and Jeremy Sherr. She is nationally certified by the *Council for Homeopathic Certification* and retains her license with *The Allied Health Service Professions Council of South Africa*. She is on the Homeopathic Executive Board for *The License Commission of the Americas*.

Gabrielle Traub is a sought-after speaker and has taught to practitioners and physicians in England, South Africa, Pakistan, Dubai and throughout the USA. She is regularly interviewed on television and radio and produces and hosts the radio show "Vital Force".

Gabrielle's science and research background brings a clear and rationale element into her teaching. Her warm, exuberant personality captivates her audience and her experience with extreme cases makes her seminars dynamic and exciting. Gabrielle currently practices in San Diego, California where she works in a traditional OB-GYN clinic as well as an integrative medical clinic. Before creating her own integrative clinic she was part of a core team of clinicians at an in-patient treatment center for eating disorders, addictions, chronic pain and PTSD, where she treated hundreds of patients with disabling psychiatric conditions. She has won the respect of both the medical and homeopathic communities and serves to narrow the gap between them.

This upcoming seminar Gabrielle will speak on Psychiatric conditions on Saturday and Gynecological complaints on Sunday.

"Gabrielle has always been highly prepared, professional, and current with her teaching style and information. I continue to be impressed with her ability to relate good science to challenging topics and bring other topics of interest to the public through her Vital Force Radio show. It is challenging to find faculty, and speakers, that have charisma, passion, and expertise that engage a class and participants the way Gabrielle does!"

Stacy Gomes, Ed.D., M.A.Ed
Academic Dean at Pacific College of Oriental
Medicine
